

The Ethics Lab

Where Gen Z shapes the future of Ethical AI

The generation that will live with AI should be the one deciding how it behaves.

The Ethics Lab is a 501(c)(3) that teaches AI ethics and hard reasoning to students who will spend their entire adult lives inside this technology, and who right now get no class in it at all. It was founded and is run by high schoolers. It has always been free, and we intend to keep it that way.

What we built:

A curriculum designed with industry leaders, a learning software curriculum is on, and coupons for students who finish the program.

The curriculum

Built by students and teachers, for students, with guidance from professors and grounded in established STEM education standards.

The platform

We built the software it all runs on. Lessons and discussion for students, rosters and session plans for facilitators.

The certificate

Finishing earns a certificate and a partner coupon, so local businesses can attach a real perk to it.

What your support does

It keeps the whole thing free. No student has ever paid to take Ethics Lab, no school has been charged to run it, and every dollar raised goes to protecting that: the curriculum, the platform it runs on, the certificates, and getting into the next school.

Ways to support

Every level is named publicly, and each figure funds a specific thing rather than general operations. You get the benefits of your new tier and everything above.

LEVEL	AMOUNT	WHAT IT DOES, AND WHAT YOU GET
Ink Drop	\$250	Named on our supporters wall and thanked by name supporters page of our website.
Contributor	\$500	The above, plus your name in our social thank-you post and your logo at the bottom of every email.
Lab Partner	\$1,000	Keeps the curriculum free for students. Logo on our partners wall, and named at our in-person events.
Sustaining Partner	\$2,500	Keeps the platform running and free to use. Your name on every certificate we issue.
Hackathon Partner	\$5,000	Title sponsor of one AI ethics hackathon: logo across the event and its production, plus a judging seat.
Chapter Underwriter	\$10,000	Bring the whole program into a new location, have the chapter named after you. A private briefing with the team and quarterly updates.
Scholarship Partner	\$25,000+	Named across the program and the platform. Your fund will help us provide scholarships to help kids pursue their AI interests for FREE.

Where your name shows up, at every level

The partners wall on our site, our social accounts, our printed materials, spoken thanks at every in-person event, and the updates that go out to every family. We say supporters' names in every room we are in.

Fifteen minutes?

We will show you the platform, the numbers, and exactly where the money goes. Bring the hard questions, we would rather answer them now.
